ure the safety of the foreigners in the The War Department received the following undated cablegram from General Mac-Arthur this morning:

"Transport left Manila at 8:30 on the morning of June 27, with Colonel Liscum in command. Thirty-nine officers, 1,271 men." The Ninth Infantry should reach Taku about Wednesday next, the Fourth of July. The War Department had already anticipated Admiral Kempff's suggestion relative to landing the troops at Taku instead of Che-Foo.

A significant piece of information furnished by the Navy Department is the report of the sailing of the Scindia to-day from Gibraltar for Cardiff for a cargo of Welsh coal, which she is to carry back to Manila or China. The ship was on her way home from Manila via the Mediterranean route.

Quartermaster General Ludington received a cable message to-day from Colonel Miller, quartermaster at Manila, saying that the transport Fort Albert, which accompanies the Logan to Taku, carried nineteen wagons, four ambulances and one delivery wagon, with four mules for each vehicle and forage for thirty days. This cargo comprises the transportation outfit of the Ninth Infantry and is expected to be delivered at Taku a few hours after the arrival of the troops on the Logan.

Conger Probably Still in Peking.

WASHINGTON, June 28.-Administration officials are quite concerned over Chinese advices to the effect that members of the foreign legation in Peking are not at Tien-Tsin with Admiral Seymour's relief column. The dispatches of the last two days, indicating that they were with the admiral a few miles from Tien-Tsin had allayed, in a measure, the tension existing here as to their safety, but as no word had come from Minister Conger, the confidence temporarily felt is giving way again to fear that all may not be well with them. It is believed here that Mr. Conger would have taken the very first opportunity to communicate with his government, and that the fact that he the officials say, is strong ground for be- from the Rev. Mr. Brown, one of its mis- forgery, and notice of his arrest in Mislieving that he may not be in Tien-Tsin, although to-day's dispatches report the relief column there. This fact is considered confirmatory of the latest intimations that the legation representatives are still in Peking, and some fears are entertained for them if still in the Chinese capital.

Foreign Legations Protected.

SAN FRANCISCO, June 28 .- William H. Harries, of the Hong-Kong and Shanghai bank, received a cablegram from Shanghai to-day which stated that all the foreign legations up to June 25 had been receiving every protection from the Chinese government. Hitherto it had been believed here that the Chinese government was powerless In the capital to afford protection from the

SPECIAL SESSION IMPROBABLE.

McKinley, Fairbanks, Davis, Hitt Do Not Think Congress Will Be Called. Special to the Indianapolis Journal.

WASHINGTON, June 28 .- Senator Fairbanks, of Indiana, Senator Davis, of Minnesota, chairman of the foreign relations committee, and Representative Hitt, of Illinois, chairman of foreign affairs committee, were at the White House to-day conferring with the President concerning the Chinese situation and the probability of his calling a special session of Congress to deal with it. When they emerged from the presidential presence all of them concurred in the same story-that in the President's opinion and in their own the situation was clearing and the probabilities are against calling a special session. Of course, they as well as the President recognize the possibility that affairs in the Celestial empire may take such a turn as to make a special ression imperative, but they believe it is improbable that they will do so. The lack of accurate and authentic information from Minister Conger and from Peking is the doubtful factor in the case. Yet enough is known to warrant the belief now that the worst is over and that war, in the international sense, will not ensue. Up to date there has been rioting on a huge scale and there has been genuine fighting, but these things alone do not amount to war. On the other hand, war may be precipitated, but everything has been done that can be done by this government to meet such an unfortunate condition and to enable the govment to protect its own citizens until Congress could be summoned to take such additional steps as might prove necessary. onfident was Senator Davis that there would be no special session that he and his intention to go to Minnesota and take a rest, and in making this announcement he added significantly that he did not expect to return before next De-

WHAT CRANSTON MEANT.

Methodist Bishop Explains His Recent Utterances.

DENVER, Col., June 28.-Bishop Earl Cranston, of the Methodist Episcopal Church, says that disconnected sentences from his recent sermon on the situation in China which had been published throughout the country had caused misapprehension of his view. He adds: "When I said that the Christianizing of China would be worth any cost. I was speaking specifically of voluntary missionary sacrifices on the part of the church and, in answer to the question suggested by the present perils of our missionaries in that countrywhether the ends sought were worth the cost-I said I abhorred the idea of making Christians by force of arms, even were it possible to do so. Continuing my remarks as to the perils of our people shut up in Peking and Tein-Tsin, the insignificant number of Americans in the relief column and the diplomatic hesitation at Washington as to the use of troops, instead of marines, I said that in such an emergency I would destroy all the red tape in the the murderer. world and set aside any treaty, meaning, of course, and that is inoperative, such as that by which China guarantees protection to both missionaries and native Christians, in order to place America in the forefront with England. That meant the rescue of imperiled life, not a bloody propaganda. As to the open door for Christianity as well as commerce. I hold that Russia is the power that threatens great interests. I contend that, apart from a crisis like the present, schools are better than warships to overcome Chinese prejudices against forsigners and believing that under a just and enlightened policy on the part of the civlized nations China will work out a high lestiny for herself, I oppose any division of the empire.

ABOUT 160 KILLED.

Missionary Brown Tells of Loss of Life and Property at Tien-Tsin.

NEW YORK, June 28 .- The following cable was received at the Methodist Episcosionaries in the Tien-Tsin district.

"Mission destroyed by fire. About 160 killed. I think there is a serious risk for foreigners. Will return in a few days to Tien-Tsin. Shall I return home? Will you

By the mission is meant the mission at lien-Tsin, but just how much of that mission is destroyed the home board does not know what to infer. The mission there is n three compounds, as they are called. One compound is composed of two missions and a church, another of a mission and a school, and a third of a mission, hospital and a school. In all, the property of the Methodist Episcopal board there is ralued at something more than \$50,000. The Rev. Dr. A. B. Leonard, secretary

of the Missionary Society, said: "Presumably those killed were natives, but it is not clear even that they were native Christians. Many of them may have been Boxers or Chinese soldiers." Dr. Leonard thinks none of the Methodist missionaries were among the killed, or Dr. Brown would certainly have mentioned the fact.

to Get to China. CHICAGO, June 28.-General Adna R. Chaffee, en route to China as commandant of the American troops in the Flowery Kingdom, arrived here at 9 o'clock to-day and went to the Union League Club as its guest. General Chaffee declined to be interviewed. During the forenoon General Chaffee called on General Wheeler, at army headquarters, and at noon the two veterrors took lunch together at the Union

During the afternoon, after a drive about the city, General Chaffee received the newspaper men for a few moments. "We're under rush orders to get to China," he "and will sail on Sunday on the Grant, which is waiting for us at San Francisco, for Nagasaki, and from that port we go to Taku, stopping possibly at Che-Foo. I do not know how many men we will have. Nine hundred will sail with me on the Grant and the Ninth Infantry is already on the water from Manila to

ENVOY FROM THE EMPEROR.

Captain Platt to Ask Intervention in

Behalf of the Deposed Ruler. TACOMA, Wash., June 28.-Captain Ralph Platt arrived in Tacoma to-day from China, and claims to be the accredited agent of friends of the deposed Emperor. Platt carries credentials, and is on his way to Washington to ask the intercession of this government in behalf of the Emperor. Captain Platt was with the Oregon volunteers and was attached to General Hughes's staff as adjutant general, and when his term expired in the Philippines he was made legal adviser, and was thus thrown in with the Chinese minister at Manila. At the outbreak of the Boxer troubles Platt was at Wei-Hai-Wei, and friends of the Emperor secured his services. Senator Fairbanks went to New York His mission is said to be primarily for the ter, Orange; James H. Caldwell, Vigo; John purpose of securing justice for the Emperor, and hints that he may ask the powers to establish a protectorate. Platt left for | Putnam; Jennie Clark, Spencer; J. D. Clem. Mission Property Destroyed.

NEW YORK, June 28.-Two cables were received by the Presbyterian Board of Foreign Missions this morning. The first, from Shanghai, read: "Wei-Hen destroyed. Foreigners escaped." The Presbyterian board had \$40,000 worth of property in Wei-Hen. and this is now all gone. Dr. Fairries was one of the missionaries there and he escaped with the others.

The other cable came from Che-Foo and stated: "Lobenstein at Shanghai; Fenns at Peking." Rev. E. C. Lobenstein was stationed at Nankin, and it would appear as if he had to make his escape to Shanghai. The cable also stated: "No word has been received from Peking or Pao-Ting-Fu," and "Wei-Hen mission burned; mission-

No Missionaries Murdered. CHICAGO, June 28 .- It having been reported that at least one Methodist missionary in Chiha had been murdered by the Boxers and that others unaccounted for had been probably massacred, Dr Edwards, editor of the Northwestern Christian Advocate, of Chicago, cabled Rev. Frederic Brown, Methodist missionary at Che-Foo, asking for the names of all Methodist missionaries who had been murdered. Dr. Edwards to-day received the following reply: "I am very glad to state that none has been reported. Hopkins and Mrs. King have had a very narrow escape." Rev. Nehimah Hopkins and wife are missionaries at Tsun-Hua. Mrs. King and her husband, Rev. Harry E. King, are nissionaries at Peking.

Burned by the Boxers.

ASHTABULA, O., June 28 .- Rev. Charles L. Chalfant, of this city, has received word from his brother, Rev. H. Chalfant, who is a Presbyterian missionary at Wei-Hein, China, to the effect that the mission station there, together with the residence of Mr. Chalfant, has been burned by Boxers. The missionaries there escaped with their lives and little clothing.

STATE NORMAL GRADUATES.

Eighty Students to Receive Certificates of Ability to Teach.

Special to the Indianapolis Journal. dents of the Indiana State Normal School left by hundreds to-day. Usually many go home in the early part of commencement week, but this year many remained over to witness "As You Like It," given by the senior class last night.

The alumni association held its annual meeting this afternoon, and to-night, with the seniors, the members were the guests at a reception tendered by the board of trustees and the faculty. The trustees were in session to-day attending to routine business. The selection of the faculty for the next school year was made, the entire corps of instructors being re-elected. The alumni association elected officers, as follows: President, Lawrence McTernan, '97 Anderson, superintendent of Madison county schools; vice president, Oscar Kelso, '79, Terre Haute, member of the Normal faculty; secretary, Miss Etta Blazer, '98, teacher in Indianapolis schools; treasurer, Miss Sarah Scott, '98, teacher in Terre Haute

The unprecedentedly large number of di plomas to be awarded to-morrow is a very significant fact. The state law has a provision that puts a student at the Normal under a moral obligation to render service as teachers for higher education and for special preparation of young men, and roung men for the profession of educator. For that reason it was provided that on graduation only a certificate should be issued. When the graduate can bring to the board of trustees evidence that he or sne has taught satisfactorily in the public schools for two years after graduation the diploma is awarded. This diploma is a state life license to teach in the public schools of the State without being required to stand the examination in each county where the teacher may seek employment. The return of such a large number for diplomas tells the story that the graduates of the Normal are going into the profession as a permanent pursuit in life

Following is a list of students who wil receive certificates to-morrow, with their home counties: S. L. Blue, Kosciusko: R. Coar, Marshall; W. J. The contract has been completed by the company, and it is now ready to turn the property over to the town. The vote on the proposition carried by a good majority, but there is a large element of taxpayers who oppose the purchase of the plant or even the renting of the electric street arclights, claiming that it is a luxury which the town cannot now afford. Mr. Fudge, backed by a strong element of taxpayers, some time ago secured a temporary restraining order preventing the Town Board from making the purchase. and he now seeks a perpetual order from the court, and will seek to show that the town now has the lawful limit of indebtedness-namely, more than \$12,000, or the per cent. allowed by law-and that the adlitional bonds cannot be floated lawfully. On the other hand, the argument is made that recent fires in the business center of the town have wiped out more property than would have been required to pay for the water works.

Workers and Operators. NEW YORK, June 28 .- The annual conerence between representatives of the Amalgamated Association of Steel and Iron Workers and officials of the American Tinplate Company took place at the local office of the latter corporation to-day. The purpose of the conference was to fix a scale of wages for the 35,000 tin workers of the association for the ensuing year. Although the conference lasted until late in the day, no definite conclusion was reached and an adjournment was taken until tomorrow. Both sides declared that the dis-

tin workers' representatives would not admit that they had asked for an advance over the prevailing rate of wages, but from other sources it was learned that advances averaging about 6 per cent. all around had been demanded.

For the Amalgamated Association there were present at the conference President T platform of 1900 and pledging no fusion Assistant President Thomas Mansell, of Pittsburg; John Chappell, of New Castle, Pa.; Charles Williams, Washington, Pa.; John W. THREE OAKS IS HAPPY

ADMIRAL DEWEY WAS NOT THERE, BUT MISS HELEN GOULD WAS.

Gen. Alger Made a Speech, and the Generous New York Woman Unveiled a Cannon from Manila.

THREE OAKS, Mich., June 28 .- Ceremo-

nies attending the unveiling of the cannon

presented to this town by Admiral Dewey began at 2 o'clock this afternoon. Miss Helen Gould, accompanied by Dr. and Mrs. Palen, Misses Palen, Edwards and Colen, arrived from the East this afternoon on the same train with Gen. Russell A. Alger. The party reviewed the military and civic parade, which took place shortly after their arrival and the ceremonies attending the unveiling of the Dewey cannon were then observed. After a speech of welcome by Mayor E. K. Warren, General Alger was introduced and spoke in part as follows: "I am happy, indeed, my fellow-citizens, to be with you here to-day and in a humble way drop my mite in the ceremonies of unveiling this cannon that is in the heart and in the brain night and day township. Two men who took refuge in it of every citizen of Three Oaks and to welcome the guests that have gathered here to join in these ceremonies. We have guests from Illinois, Indiana and Ohio, and they are always welcome in Michigan. But we are especially favored in having one whose good deeds, perhaps, I have reason to know of as any other living person outside herself-a lady who, when our soldiers were suffering in hospitals and when there was need of the sympathetic hand and heart of woman to aid them. This lady, with her great heart, unselfish to a degree, asked the secretary of war what she could do

> that you live, and we appreciate your com ing in our midst. May your coming here be a blessing and a benediction.' Dr. W. E. Barton, of Chicago, delivered the oration of the day on the theme "Victories of Peace and War." Miss Gould was then escorted to the edge of the platform by Mr. Warren, who said "I take pleasure in speaking for you and for millions more in this great Nation who

Before touching the button that unveiled the cannon Miss Gould turned to President Warren and said: "It gives me great pleasher grandfather, Michael Hammans. The ure, indeed, to be present and take part in the ceremonies connected with the unveiling of the Dewey cannon.' Miss Gould was greeted with continuous cheers. As a friend of the soldiers of the army and navy she gracefully acknowledged this, and at the proper time touched an electric button, which released a spring to the tent-like canopy enveloping the cannon. The canopy divided into eight sections, each section falling on the green turf of the mound below, outlining an eight-pointed red, white and blue star. The

He added that the damage done to the foreign settlement as Tien-Tsin was comparatively slight, except in the case of the French and British concessions, which had suffered severely. The British casualties were four men killed and fifty wounded, including six officers. Mr Broderick also said the government had

no news of the legations. In the House of Lords to-day the premier, Lord Salisbury, referring to the relief of Vice Admiral Seymour, said he knew nothing of the position of Sir Claude Mac-Donald, the British minister to China, or of the members of the other legations in the country. He thought, however, there was ground for hoping that no violence had been done them, but even that, he added could only be stated hypothetically.

WARLIKE MOVE BY RUSSIA.

Secret Orders to Prepare for Mobilization-Missionaries in Peril.

BERLIN, June 28 .- The Vorwaertz says: "From an absolutely reliable source we hear the Russian War Ministry has sent to all the military and civil authorities in of William Crothers, has surrendered to Russia telegraphic secret orders to prepare everything for mobilization. The orders

bear the date of June 18 and 19." The Cologne Volks Zeitung has received a cablegram saying that the situation in the mission districts in the southern part of the province of Shan-Tung is now extremely threatening. Pro-Vicar Freindemetz telegraphs from Zeining, on the Grand canal, that the missionaries are without protection and that their lives are in great danger. According to the same paper, there are in Peking ten thousand Catholics and twenty-five Catholic missionaries and one hundred Protestant missionaries. The Volks Zeitung expresses aston ishment that none of these people has been able to send news to the coast. General Von Hanneken, formerly mili-

tary instructor in the Chinese army, replying to a statement in the English press that the Taku forts were built by German engineers, says they were built by Chinese mechanics and afterward remodeled by Americans. The Vorwaerts complains that the German government is taking all the various steps in China without consulting the Reichstag, which is now adjourned, whereas, the British and French parliaments

don and Paris must make reports to them upon the progress of events. It adds: "It is high time that our people recognized the danger threatening them and that they called the government to strict account.' LONG, BLOODY CONFLICT.

On being asked if he thought the Boxers would be quickly suppressed, he said that, in his opinion, the powers had started in on a long, bloody conflict. In the end, the Boxers would be disbanded, but the sacrifice of life would be appalling, for the movement was spreading like wildfire throughout China's vast territory. The south was also about to take up arms and his information was that the uprising in the south was very grave and of great dimensions. The southern Boxers would join the north and vast mobs of fanatics would have to be contended with They would be insufficiently armed at first, but enormous quantities of arms were be ing constantly smuggled to them, and, owing to the countless hordes of fanatics and the vast territory covered, they could, for ne time, defy the whole world. This was the assertion made to-day by a leading official of the council, and before night it was accepted generally as true that a proposition looking to quasi dissolution of the central body would be made at to-morrow night's meeting and a consensus of opinion was that it would be accepted. PHILADELPHIA, June 28.-When the British ship Hudson leaves this port for Japan, within a few days, she will carry an oil refining plant, the first ever shipped to that country. The cargo, which is now being placed on the vessel, will also include tanks and the necessary apparatus for the discharge of the oil into vessels and cars. The refinery will be located at either Kobe or Yokohama. The work of running the refinery and developing the newly discovered fields will be under the direction of skilled Americans, their subordinates being Japanese.
